

# Waymaker Access Codes

## Student Guide

1. **Access Course.** Access course materials in your course site inside your Learning Management System (Canvas, Blackboard, D2L/Brightspace, etc.). Waymaker materials include study plans (which contain content and practice activities) and quizzes. You will always have full access to study plans, but an access code will be required for quizzes.

2. **Get Started.** You may take up to two quizzes before an access code is required. If you are in a pinch and need more time to purchase an access code, one more quiz is allowed (with a warning). We'll remind you to purchase an access code each time you open a quiz and the first time you open a study plan.

3. **Purchase and Enter Access Code.** Purchase an access code from your campus bookstore, then follow the instructions provided to enter the code into any quiz page or study plan.
